

# Script-Controlled ACL – Restrict Record Access Based on Field Value

## Phase 3: Project Design Phase

### Objective

Design the ACL logic, record-access flow, data conditions, and script structure.

### Key Activities / Deliverables

|   |                        |
|---|------------------------|
| 1 | System design          |
| 2 | ACL decision flow      |
| 3 | Field-value conditions |
| 4 | Script logic design    |
